CODE OF ETHICS IN RESEARCH

Date : _____

Code of ethics in research is aimed to tackle plagiarism as a researcher claims others work as his/her own which degrades not only his reputation but also the place of his research, affiliating Institute, and affecting the entire research process promoting a bad research culture.

In this view, the need arises to assess the research work of the students and faculty members as researchers who present their work in the form of research papers and articles, project/thesis reports and proposals. Therefore it is necessary that the research should go through a well defined ethical process and discouraging any plagiarism to maintain high academic standards.

In this view college has constituted a review committee comprising of

1. Principal
2. Dean (R&D)
3. HOD of Respective Departments
4. Subject Experts (Guides and Faculty Members)

Plagiarism:

Plagiarism can be defined as "*Unethical Scientific Behavior*". Due acknowledgement of others work referred must be cited in ones research work.
