## **GREEN CAMPUS POLICY**

## GREEN CAMPUS POLICY

A Green Campus is a place where environmental friendly practices and education system jointly promote sustainable and eco-friendly ambiance in the campus. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind. Green Campus status is achieved by making significant progress in cross campus community collaboration under one or a number of the following themes:

1. Energy
2. Water
3. Waste
4. Green Campus & Biodiversity

### Energy

**Reduce energy consumption :-** In this context MIET College therefore has adopted the following policies.

- a) Activate power management features on your computer and monitor so that it will go into a low power "sleep" mode when you are not working on it.
- b) Turn off your monitor when you leave your Table.
- c) Turn off unnecessary lights and use daylight instead.
- d) Use LED or compact fluorescent bulbs as much as possible
- e) Switch off lights, fans in conference rooms, classrooms, lecture halls when they are not in use.

### Water

**Minimize consumption of water :-** In this context MIET College therefore has adopted the following policies.

- a) Repair sources of water leakage as quickly as possible.
- b) Aware students regarding the importance of water and minimize the consumption of water.
- c) Rain water harvesting.

### Waste

Waste minimization is very important because it makes good business sense to protect the environment and boost environmental performance. Waste minimization techniques focus on preventing waste from ever being created, otherwise known as source reduction, and recycling. MIET College therefore commits to:

- a) Keep a stack of paper that has been printed on one side and use it for day to day rough paper work

- b) Minimize the use of fertilizers and pesticides in college grounds, opting for the use of compost produced on site wherever possible.
- c) Reduce the practice of burning plastic and other materials that emit harmful gas on burning is prevented in the campus.
- d) Aware students and staff for not using plastic in college campus.
- e) Encourage students and staff for tree plantation.
- f) Maintaining green around the college campus.
