**Report on
3-Day Workshop on "Android Application Development"**

Introduction:

Workshop on “**Android Application Development**” aims to impart technical and practical knowledge to students and future engineers. This workshop was an initiative of Department Computer Engineering, Manoharbhair Patel Institute of Engineering & Technology, Bhandara under the Guidance of **Dr. A.L.Nashine (Principal-MIET Bhandara)**), **Prof. Piyoosh Awthare (HOD-CE)**, **Prof Jayant Rajurkar** and **Prof. Shraddha Agnihotri** to impart knowledge to the students regarding app development in Android.

Dr.A.L.Nashine, (Principal, MIET Bhandara) started by addressing the students and faculties by giving them an insight about the Department and course and why they were conducting such events for the students, what benefit students will gain by such events and many more advantages of students.

About the Workshop:

It was an interactive workshop with **Mr. Faizan Aalam, Trainer Nagstud Technologies**. He started the workshop with the Current trends of Android development and its advantages and disadvantages. He explained them the benefits and changes it will bring to day-to-day activities and how it can benefit them irrespective of their branch. He discussed the importance, usefulness and impact of apps in today’s digital world. He briefed the students about the types of validation, basic hardware and software requirements for android development.

He provided insights about Android development. He explained them app architecture, app components and app resources. He not only explained it analytically but also demonstrated by creating an app with the students. Even the students got a chance to experiment with their coding skills on Android Studio. To enhance
